Interior:

Per Dennis: Regionally/Clearwater: Solstice weekend is coming quickly with 65/72 spots sold currently. Hoping for a last minute push. The core competency week at the high school was a huge success. 15 kids learned to play disc golf on Friday, Friday afternoon they laid out a course on the school property. Over 4 days they brushed, weeded, built tonals from scratch, installed and presented the course to the School District. It was fully playable Thursday afternoon. This course is a super fun short course, a little "lefty flick" friendly, but the options to open it up with more pin placements is certainly there. The PE groups have started playing and these kids have been running a semi league already. Barriere high school, about 60km away, has taken notice and wants to install one as well. Also trying to get in touch with the golf course in 100-Mile House as rumour has it, they are looking to add some revenue to the ball golf course there. There isn't much of a player base there, but I do know of two players that are keeners over there...we'll see how that goes.

Kamloops: New course pending review from council.

Next meeting: July 11, 6:30pm

Adjournment: 7:40pm
